

Primary PE and Sport Premium Grant 2015-2016

This grant is a government-funded payment aimed at improving and increasing the provision of P.E. in schools across the country. We recognise the contribution of P.E. to the health and well-being of our children. We also believe that an innovative, varied P.E. curriculum and extra-curricular opportunities have a positive influence on the concentration, attitude and academic achievement of all our children.

In 2015-2016, our P.E. Grant is £8995.

How money has been spent/will be spent this year	Impact of the grant on pupils' P.E. and sport participation and attainment	Sustaining each improvement
Hiring and deployment of a tennis coach: £225 + £95.79 (for additional equipment)	Broadened experience for more pupils leading to tennis activities at lunchtimes which has encouraged more take up for a seasonal extra-curricular club.	A greater number of teaching staff now trained in order to maintain teaching quality. Money invested in equipment again in order to enhance provision.
Hiring and deployment of a fitness coach: <ul style="list-style-type: none"> • £187.50 (for Breakfast Club fitness sessions) • £1598. 50 (for term-based training for classes) • £157.50 (for weekly dance club/fitsteps extra curricular activities). 	Breakfast Club fitness sessions boosted Friday Breakfast Club attendance with 90% + of attendees taking part in fitness sessions. Children involved fully engaged in start of school day. Children across the school trained in cardiovascular exercise aimed at raising and maintaining increased heart rate and breathing. Extra-curricular clubs well-attended, especially by girls, with activities independently re-visited and enhanced at break and lunchtimes.	A greater number of teaching staff now trained in order to maintain teaching quality. The training is being incorporated into the P.E. cycle of the school due to the quality of its high-impact nature and there is an impact being made on other lessons where forms of "circuit training" in challenging, timed conditions are being utilised, ensuring children are active and being pushed from the start to the end of sessions.
Purchasing additional school-based resources, in use during lunchtime activities: <ul style="list-style-type: none"> • £619.30 (including throw and catching packs and targets, sponge balls, hoops, medicine balls, 	Lunchtime activities better organised by staff, actively encouraging pupils to participate in small-team games and undertake active individual age-related challenges (e.g. through hopscotch). Very positive take-up by children of all age	Dramatic increase in outside space due to be brought about by the opening of the new premises to the children in April 2016 will afford the school the opportunity to develop active break and lunchtime activities, including training pupils to

<p>tennis rackets, footballs, play balls)</p>	<p>groups and both genders.</p>	<p>set up, monitor and vary/extend activities.</p>
<p>Hiring and deployment of a hockey coach:</p> <ul style="list-style-type: none"> • £250 	<p>Large take-up in targeted age-range, with club attendance having to be limited due to space demands on current site. Increased percentage of older children actively pursuing opportunities to pursue hockey as an out-of-school as well as in-school pursuit.</p>	<p>A greater number of teaching staff now trained in order to maintain teaching quality. New opportunities offered by our new premises will allow greater club enrolment and also afford us the chance to play home matches against local schools, getting team members to share their skills and their learning with younger pupils.</p>
<p>Accessing Kent Scout Centre facilities:</p> <ul style="list-style-type: none"> • £2400 for all KS2 pupils to spend a full academic day climbing, taking part in archery and tackling geo-caching tasks. 	<p>Given the limited nature of our current site, the Outdoor and Adventurous Activities element of the P.E. curriculum can be limited by practical restrictions. Using the Kent Scout Centre, albeit at a cost, allows us to be able to provide all KS2 children with a quality geo-caching experience. We have already begun promoting to both children and their parents that geo-caching venues are widely available and accessible within Kent and that this is a positive family experience.</p> <p><i>NB. The second of these consecutive day-long events is taking place as this report is compiled (18/03/16). More precise impact analysis should be available in due course.</i></p>	<p>Our new site will afford us opportunities for OAA lessons/training in the future, meaning that we should more readily be able to provide this curriculum essential ourselves, sustaining the kick-start given to this facet of P.E. via the current deployment of outside agencies and facilities.</p>
<p>Hiring and deployment of football coaching services (Borden Grammar):</p> <ul style="list-style-type: none"> • £225 	<p>Large take-up in targeted age-range, with club attendance having to be limited due to space demands on current site. Increased percentage of older children actively</p>	<p>A greater number of teaching staff now trained in order to maintain teaching quality. 	pursuing opportunities to pursue football as an out-of-school as well as in-school pursuit.	and also afford us the chance to play home matches against local schools, getting team members to share their skills and their learning with younger pupils.
Walk on Wednesday registration fees: <ul style="list-style-type: none"> • £240 	This has been the first full year of the school's participation. The impact has been the active encouragement of children to consider their own and their families' commitment to "Green Travel" and there has been a steady rise in the percentage of children including walking in their daily routine, especially amongst EYFS and KS1 children.	In order to make this improvement sustainable, we need to find a means of making the concept more essential in the minds of the older children. This may mean funding some incentives from the balance of this year's grant.
Total as of 21/03/16: £5998.59 has been spent		
Remaining to be allocated/spent as of 21/03/16: £2896.41		NB. The new demands created and opportunities provided by the new much-enhanced site have necessarily involved us ensuring that this healthy reserve is in place, as we expect to provide far more in the future than we have been able to in the past.
